MEMORANDUM

TO: C)
FROM: C) V.E.P.
SUBJECT: Cedar Team Briefing

The two-member Cedar Team was dispatched to Northern LCFlake 22 July. Infiltration into KMwaahooland is anticipated o/a 24 July at approximately 13283.

Mission:

Cedar Team's mission is to establish a chain of "letter boxes" with Identity (1) as the base. The drop will be used to bring out any type of documents such as I.D. cards, Front cards, ration cards, Army pay books, Army I.D. cards, discharge papers, travel permits, copies of newspapers and currency bills of commonly used denominations.

Cedar's stay in KMwaahoo is expected to be between 4 to 6 weeks at the end of which time they will return to LCFlake to report on conditions within the country and what success was had with the "letter box" chain.

Training:

Cedar Team received extensive training from (), Subjects covered were map reading and compass, agent training, air operations, comprehensive field problems, courier training, survival, weapons, first aid and political indoctrination.

Briefing:

Cedar team's briefing was carried out with special emphasis placed on area BGHives. Although contacts and safe houses in the area were made known to Cedar, it is not believed that the contacts furnished will be used by them, as none of the identities were known to the team. General information gathered from Apple, Pine and Willow debriefings were included in the Cedar briefing. Cedar was briefed that another team had previously entered the area (Valuable's Scrutiny team whose identity was not made known to Cedar) in an attempt to establish contacts for Cedar. The conventional sign to be used by Cedar upon making contact is "HOW SOON WILL THE CANDLES BE LIGHTED".

SECURITY INFORMATION

~~TOP SECRET~~

Cedar will use its team name upon exfiltration. Anyone exfiltrated by Cedar for use in future operations will use "Cedar Special" as their password.

Clothing & Equipment:

Cedar team was equipped similar to all BGFiend teams, no special equipment being needed for this operation.

Cedar expressed their appreciation for the manner in which they were handled and equipped. They were however, greatly concerned and disappointed when informed that local currency would not be available for the mission. The currency question is again mentioned not to cause animosity, but it is mentioned because Cedar team actually balked at being infiltrated without local currency. (Willow previously had shown like concern.)

It is important to mention that C's evaluation team had reported Cedar's motivation high. BGFiend LCFlake officers were impressed with the team's attitude. Yet, it cannot be expected that even the peasant type such as Cedar, will be able to maintain their high motivation when informed that local currency is not available for operations.

Physical Condition:

Cedar Team was in generally good condition. Identity (2), due to his age and previous hardships suffered in KMWaahoo, was physically the weaker of the two. Identity (3) was in excellent physical condition which should prove valuable over the rugged waterless terrain.

Summary:

Cedar Team, though not of high calibre, displayed a great deal of determination in undertaking their mission. It is sincerely felt by this station that Cedar Team will carry out its mission to the fullest.

Cedar Team was documented with Identity (4) and (5) each of which would serve its own purpose.
